### ***Vriendschapsbanden (Friendship bonds)***

*The design is inspired by the surrounding Amsterdam School architecture, with its characteristic long lines. The patterns refer to the friendship bracelets that children make for each other. In the preparation phase of the project, local children designed their own friendship bracelets and teenagers could design their initials. The resulting 330 drawings were used in the final design. The art work was made by SICIS Glass Mosaic Tesserae.*

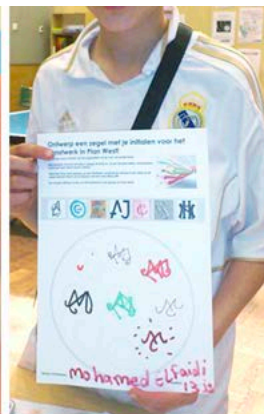

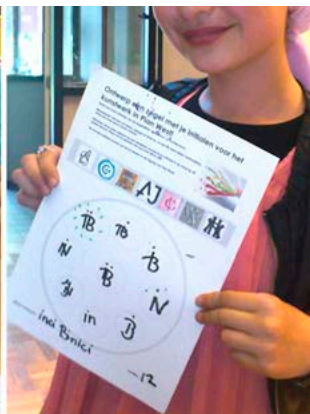

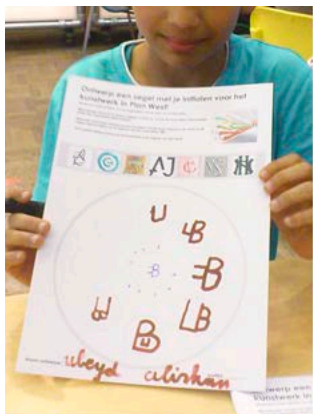

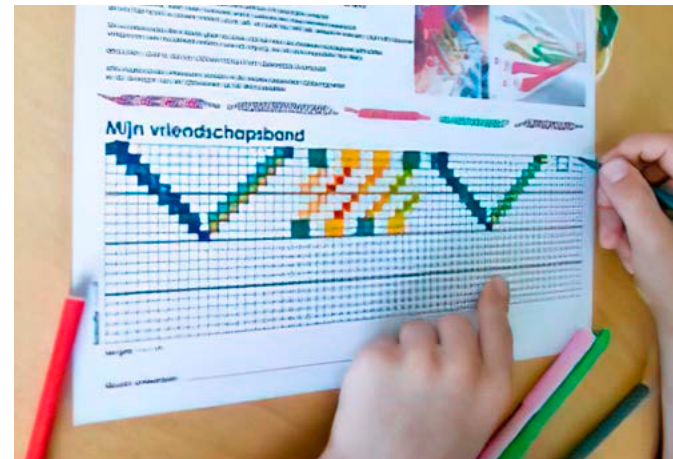

**Location:** Playground “Plan West”, Van Speijkstraat 65, Amsterdam
