REDEFINING INTERIORS

Sicis creates evocative projects, which transform the ordinary into extraordinary

THE WORLD OF SICIS

SICIS draws its inspiration from the past but always looking to the future. Thanks to the Italian liveliness that pervades it, the company from its origins has a multidisciplinary and multicultural approach to new projects, ranging from architecture to the history of art, from design to fashion.

The Sicis philosophy is to work with intuition, instinctively, it leaves the environments themselves to tell their stories. It interprets a modern luxury combined with a subtle feeling of relaxation.

Furniture and coverings are produced with distinctive qualitative peculiarities, elaborated through processes of research, innovation and craftsmanship that respect traditions.

The goal is to interpret the architectures with an elegant and exclusive taste with touches of genius that surprise and the superb use of decorations and colours. Sicis builds chic interiors, shaping materials and products like soft fabrics.

Furnishings, lights, decorations, every achievement comes from the dialogue among several people to explore and accomplish something unique.

Environments created to be lived and valued over time.

SICIS was founded in 1987 and soon became worldwide leader in the mosaics production, making prestigious international projects in the contract and residential sector.

Thanks to its unique works and collections, the mosaic is transformed from a simple covering into a communication tool, an expression of trends.

In line with this dynamism, the company takes a wider and more complete path.

New coating materials are introduced on the market. Last of these Vetrìte, an innovative product with an aesthetic content that makes it suitable for many uses and interpretations.

At the same time, in a strategic brand extension, it enters the world of interior design and furniture with the SICIS Home Collection division, The Next Art, a well-rounded lifestyle project.

The Next Art collections are refined and cozy at the same time, luxury that also means comfort. SICIS looks at the harmony of the space and each element determines the elegance of the ambience as a whole. The furnishings are combined with artistic mosaic panels, or with Vetrìte wainscoting by SICIS, in other cases the walls are adorned with tapestries of SICIS Textile limited edition line, as well as the ceilings and floors, the lights, up to doors.

The Company works on quality, from the choice of materials, to production systems, in every working phase, down to the smallest detail and collaborating only with artisans and experts who respect the best working traditions, able to give life to wanted objects and exclusive room.

Each project can be completely customized and realized from the start to the finished execution.

SICIS® products, and in particular artistic mosaic products, are unique works of art some of which are handcrafted by mosaic artists.

The colors of SICIS® mosaic or glass products are either natural occurring colors or are colors created by mixing and melting natural materials.

The sale of the SICIS® products is not a sale by sample and samples and images of the products are merely illustrative. SICIS does not represent nor does it warrant that its products, in particular mosaic products, will be identical to samples or images of such products. Moreover, mosaic tesserae may chip during the manufacturing process and natural materials as well as colored stone, or glass or enamel or other composite materials may vary in color, hue or shade. Natural material or glass chips may also show planar imperfections and/or slight differences in thickness. Therefore, SICIS does not warrant nor shall SICIS be liable for or be required to replace or otherwise indemnify purchaser of SICIS® products (a) because a sample or image or a design was not reproduced exactly, or (b) because the mosaic products required adjustments at the time of installation and may require extra material; or (c) because of chipped tiles, planar imperfections and slight differences in thickness, or variations in color, hue or shade.
