EXTELL Development Company

Across from Central Park, located on Billionaires row, the tallest luxury building in the world soars into the sky. Extell's vision and experience has brought this iconic architectural gem to one of the most coveted sites in the world. It is with great pleasure we present to you the Sicis model apartment, setting new standards in sophisticated and luxurious city living.

In designing this apartment Sicis took their inspiration and lead from the City, the Park and the Views. Recreating the verticality, reflections and ever changing light in their design, layout and use of their proprietary materials throughout. The color palette and use of space gives the sensation of floating through the clouds and reaching for the stars.

Just like the streets of New York City connect and flow so do the interiors of this apartment. From design concept to producing all the architectural surfaces, finishes, furniture, fabric and lighting there is a visual synergy that creates a warm and tranquil living space.
